

HOW WOULD YOUR BUSINESS COPE WITH A MAJOR IT SYSTEMS FAILURE?

You may think your system is running without a problem, maybe a little slow and silly things sometimes happen but nothing important is wrong.

Then one day nothing's working, your data is corrupt, your back-up won't restore
YOUR BUSINESS CEASES TO FUNCTION.

With **IT Management from MBE Computer Systems** none of the above would happen. Our regular monitoring of your system picks up small problems before they turn into enormous business threatening problems and at a cost which, in most cases, is less than you pay for your lunch every day.

We offer the most comprehensive support for small and medium businesses with a choice of support modules to fit every size of business and budget.

Mode One

- ◆ Weekly on-line health check
- ◆ Quarterly on-site system and network check
- ◆ All interim calls are free
- ◆ Instant telephone and on-line call response
- ◆ 4 hour on-site call response

Mode Two

- ◆ All of the above plus
- ◆ Free installation of hardware upgrades
- ◆ Free software installation

At your side.
